FILL THIS BRIEF FORM!

EVENTS

BLACK SEA REGIONAL STAKEHOLDER WORKSHOP

On June 27th at the **International Congress Center Burgas**, the EALING Project held its **Black Sea Regional Stakeholder Workshop**. Organised by **Circle Group** and **Bulgarian Ports Infrastructure Company**, the workshop focused on the current EALING Project results, also featuring an **open discussion with industry players** on challenges and solutions concerning OPS adoption considering business, administrative, financial, and technical aspects.

EVENTS

BALTIC AND BLACK SEA PORTS & SHIPPING

During the workshop held in Gdansk, EALING Project was presented by **Port of Constanta**. The Conference & Exhibition was focused on connecting **international trade** and **investment** between the **Baltic Sea** and the **Black Sea trade corridor**. Involving world-class speakers and attended by more than 250 senior government officials, industry principals, academics, senior executives, logistics & transport operators, the event **was the right place to present EALING and its important advancements in the field of Onshore Power Supply** or Cold Ironing. Debates and discussions together with the several industry stakeholders present were also really meaningful to better understand challenges, opportunities and to gather valuable insights for the project's outputs.
